

Physical Education and Sports Sciences

Curriculum Vitae

Full Name: Hoda Naji Zeidan Al-Tamimi

Date of birth: 03/04/1976

Certification: Master's date of obtaining ; 27/10/2007

general jurisdiction: Physical Education **exact jurisdiction;** Learn to move. handball

Scientific title: Assistant Professor date of obtaining ; 02/12/2017

Number of years of service in higher education: (15 years)

Email: hudanaji13@gmail.com

The awarding body for the bachelor's degree: University of Diyala

Acquired date: (2001-2002)

The awarding body for the master's degree: University of Baghdad

Date obtained: (2007)

The effects of special exercises in
developing the capabilities of the sensuous
motive recognition (the spatial) of the goal
keepers of hand ball game of the first class
clubs in northern area

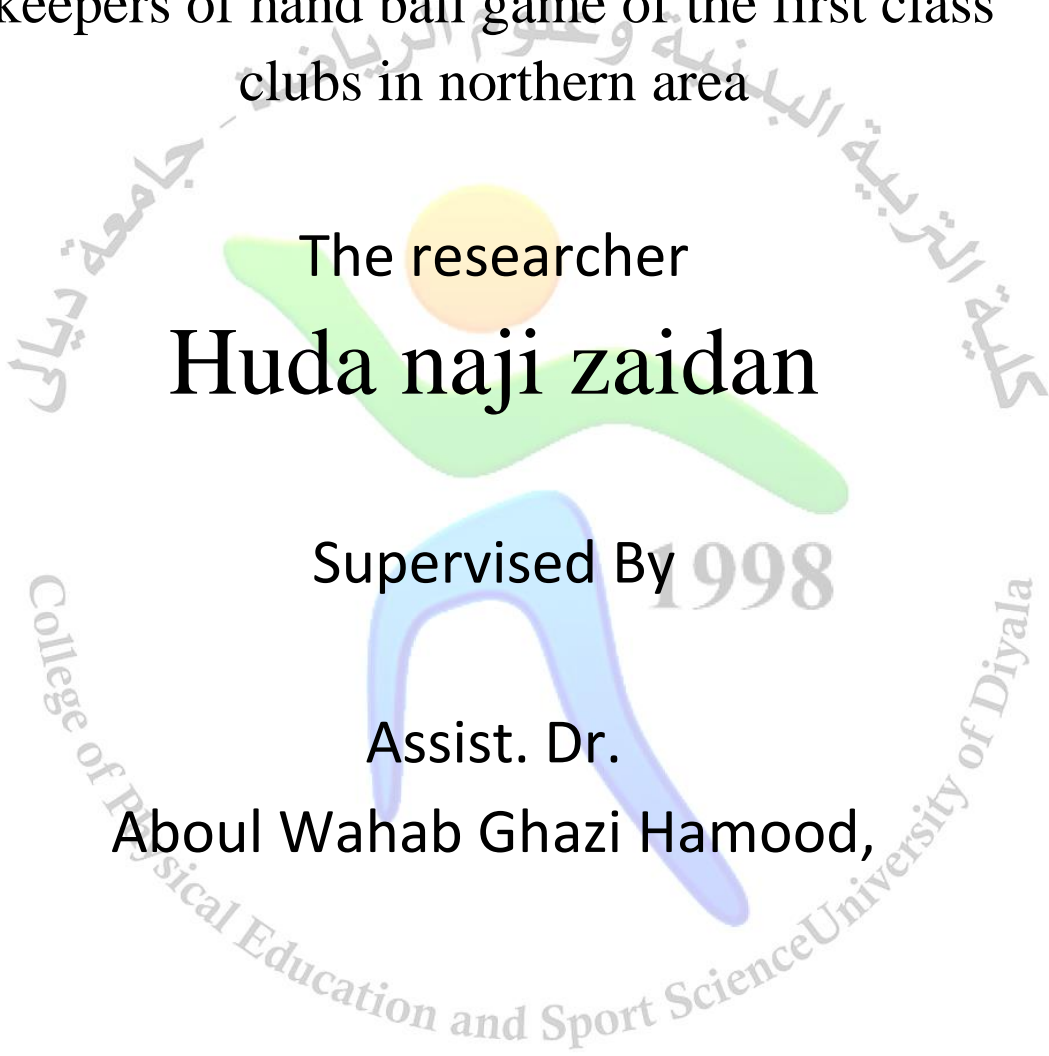

The researcher

Huda naji zaidan

Supervised By 1998

Assist. Dr.

About Wahab Ghazi Hamood,

Abstract

The message included five chapters which are:

The first chapter is for identifying the research, the introduction and the significance of the research. This chapter contained the introduction and the importance of the study, since it dealt with the importance of the goal keeper in the hand ball game, that is to the important role she would play in repulsing the balls and protecting the goal. The great development of the game made the duty of the goal keeperess a difficult task against the speedy and powerful aims. Therefore. The goal keeperess require to solve the motive duty to a continuous and fast development of the mental functions capabilities witch is always parallel to the progress of the motive capacities

The research problem:

The research problem, regarding the reason for the failure of the coal keeperess in repulsing the shots is their stand

Physical Education and Sports Sciences

not in the proper place during the repulse operation firmly and motionless and this is the result of the ill recognition and perfect knowledge with the goal keepers toward the place

The research objectives:

Preparing a collection of exercises special for developing the realization capacities of the sensuous- motive (the spatial) of the goal keeperess of the hand ball game.

Identifying the special exercises

effects on developing the recognition capacities of the

Physical Education and Sports Sciences

sensuous- motive (the spatial) of the goal keepesses of the hand ball game

The research dictation:

The non existence of mean statistical variations among the early tests and the distant ones of the experimental collection.

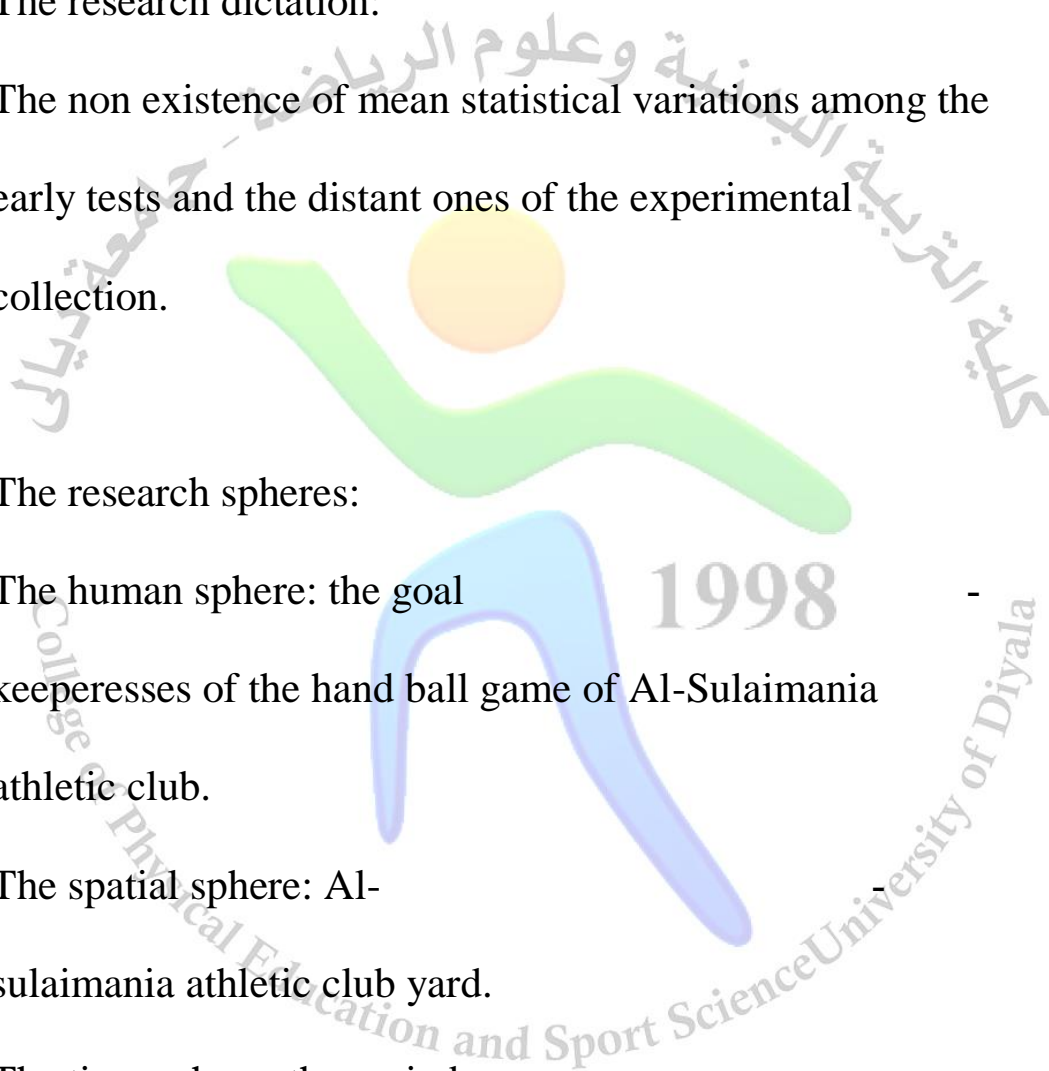

The research spheres:

The human sphere: the goal keepereesses of the hand ball game of Al-Sulaimania athletic club.

The spatial sphere: Al-sulaimania athletic club yard.

The time sphere: the period from 31/3/2007 up to 1/6/2007.

The second chapter:

Physical Education and Sports Sciences

This chapter contained the previous theoretical studies relating to the research subject in which the character and features of the goal keeperess have been dealt with and the importance of mental functions in learning the new motions and about the relation and significance of the recognition of the sensuous- motive (the spatial) of the goal keeperess in the hand ball game and the researcher has displayed some of the previous studies to support the message from scientific point of view.

The third chapter:

The researcher has used the experimental program with a design of one group with two choices, the before and after because of its suitability to the nature of the research, an intentional choice to the research sample has been made for (3) goal keeperess from Al- sulaimania athletic club in hand ball game which is a first class club in the north.

After carrying out the before test on the research sample, special exercises on the sensuous- motive (the spatial)

Physical Education and Sports Sciences

recognition have been applied for eight weeks with actually (3) units perweek and then the remote experiments have been done and then the data has been treated statistically.

The fourth chapter:

The results of the research have been displayed in this chapter which were acquired through using the suitable statistical means. These results were introduced as tables and were discussed in practical and accurate manner and supported by sound scientific resources.

The fifth chapter:

Through displaying, analyzing and discussing the results of the earlier and remote experiments of the research sample the researcher was able to arrive to the following conclusions:

The proposed special exercises

had accomplished a positive effect in developing the

Physical Education and Sports Sciences

capacities of the sensuous- motive recognition through the results that appeared in the remote experiments.

The dual performance had made -

a moving form before each goal keeperess trying to imitate it and amend it at the sometime to arrive to the stand still or the moving motives which is the ball and by such, the sense and attention will develop and cansequently the recognition.

In the light of what had been approached to of conclusions the researcher recommend the following:

The coaches and supervisors are asked to pay more concern and attention on the goal keepers in developing the mental functions with various and different methods.

Carrying out similar studies to other mental characteristics and other skills. -

Physical Education and Sports Sciences

Positions held;

NS	Occupation	Workplace	period from – to
1	Muqdadiya Youth Forum Manager	Ministry of Youth and Sports - Directorate of Youth and Sports Diyala	2004-2008
2	Director of the Wajihya Youth Forum	Ministry of Youth and Sports - Directorate of Youth and Sports Diyala	2008-2011
3	Head of the Small Projects Division in the Directorate of Youth and Sports	Ministry of Youth and Sports - Directorate of Youth and Sports Diyala	2013-2015
4	Director of the youth and sports complex	Ministry of Youth and Sports - Directorate of Youth and Sports Diyala	2015-2019

*** Universities or institutes in which he taught**

- Courses Taught

NS	University	the college	Section	Subject	academic year
1	Mesopotamia University College	/	Department of Physical Education and Sports Sciences	Football	2015-2019
