Academic program description guide

2024

the introduction:

An educational program is a coordinated and organized package of courses that includes...

It consists of procedures and experiences organized into academic vocabulary, the main purpose of which is to build and refine skills Graduates, which makes them qualified to meet the requirements of the labor market, are reviewed and evaluated annually via Internal or external audit procedures and programs such as the external examiner program.

The academic program description provides a brief summary of the main features of the program and its courses

The skills that students are working on acquiring are based on the objectives of the academic program and are evident

The importance of this description is that it represents the cornerstone of obtaining programmatic accreditation and participation

In writing the teaching staff under the supervision of the scientific committees in the scientific departments.

This guide, in its second edition, includes a description of the academic program after updating vocabulary and paragraphs

The previous guide in light of the latest developments in the educational system in Iraq, which included a description

The academic program is in its traditional form (annual, quarterly), in addition to adopting the program description
The academic circulated according to the letter of the Department of Studies T.M. 3/2906 on 5/3/2023 regarding
Programs that rely on the Bologna Process as a basis for their work.

In this area, we can only emphasize the importance of writing descriptions of academic programs and courses
Courses to ensure the smooth running of the educational process.

Concepts and terminology:

Description of the academic program: The description of the academic program provides a brief summary of its vision, mission and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies.

Course description: Provides a necessary summary of the most important characteristics of the course and the learning outcomes expected of the student to achieve, demonstrating whether he or she has made the most of the learning opportunities available. It is a gallows, according to the program description.

Program Vision: An ambitious picture for the future of the academic program to be a developed, inspiring, motivating, realistic and applicable program.

Program mission: The goals and activities necessary to achieve them in a brief way. It also defines the program's development paths

Program objectives: These are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

Program structure: All courses/study subjects included in the academic program according to the approved learning system (semester, annual, Bologna track), whether you are required (ministry, university, college, or scientific department), along with the number of study units.

Learning outcomes: A consistent set of knowledge, skills, and values that the student has acquired after successfully completing the academic program. The learning outcomes for each course must be determined in a way that achieves the program objectives.

Teaching and learning strategies: They are the strategies used by the faculty member to develop the student's teaching and learning, and they are plans that are followed to reach the learning goals. That is, it describes all classroom and extracurricular activities to achieve the learning outcomes of the programme.

Academic program description form

University name: Diyala University

College/Institute: College of Physical Education and Sports Sciences

Scientific Department: Theoretical Sciences Branch

Name of the academic or professional program: Bachelor of Physical Education and Sports Sciences.....

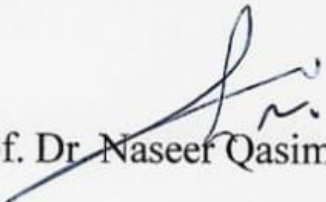

Name of final degree: Bachelor's in Physical Education and Sports Sciences..... ..

School system. annual

Description preparation date: 3/16/2024

Date of filling the file: 3/16/2024

1 - The vision of the program

Remember to see the program as stated in the university bulletin and website.

Diyala University seeks scientific leadership, excellence and creativity in the fields of higher education and scientific research to serve the community and enhance its local, regional and international standing to reach the highest levels of quality and international accreditation.

2- Program message

State the program's mission as stated in the university's bulletin and website

Providing effective academic university education through continuous development of academic programs in many specializations in light of the requirements of development plans to serve the labor market and contribute to promoting sustainable development.

3- Program objectives

General statements that describe what the program or institution intends to achieve

1. Building a distinguished educational institution within international standards that meets the requirements of the local, regional and international community in accordance with the directions of the Ministry of Higher Education and Scientific Research.
2. Creating a stimulating environment for teaching, learning and creativity by developing and updating scientific curricula and training and evaluation methods to keep pace with the requirements of the labor market.
Keeping pace with technological development in the fields of blended e-learning and developing educational and academic programs to adapt university students and teaching staff

4. Program accreditation

Does the program have program accreditation? From which side? Both

5- Other external influences

Is there a sponsor for the program? Both

6- Program structure				
Program structure	Number of courses	Study unit	percentage	comments*
Enterprise requirements		2	1	Basic
College requirements				
Department requirements				
summer training				
Other				

* We can include notes on whether the course is core or elective

7- Program description				
Credit hours		Name of the course or course	Course or course code	Year/level
Practical	theoretical 1	Learn to move		2023- 2024
✓	✓			

8 - Expected learning outcomes of the program	
Knowledge	
1. Statement of learning outcomes	1. Learning outcomes
Highlighting the student's personality in a way that develops him	1- Enabling students to obtain the knowledge required to understand mathematical theories and laws. Helping students to know the relationship of the program and its academic elements (courses or subjects) with the awarded certificate and future job qualifications
-Increasing the student's self-confidence. -Highlighting the hidden talents of the student	2-Helping students to know the teaching and learning methods that help them achieve the targeted learning outcomes in the theoretical section
-Highlighting students' teamwork	3- That the student be able to perform and practically apply all individual and group games
Skills	
Statement of learning outcomes 2	Learning outcomes 2
Developing students in the skillful performance of the practical games included in the program	Helping students apply the theoretical and practical subjects they have learned inside and outside the university setting
Statement of learning outcomes 3	Learning outcomes 3
Increasing communication between individuals, which contributes to building a learning community	Helping students apply their ideas and talents inside and outside the university setting
Value	
Statement of learning outcomes 4	Learning outcomes 4
Learn to set the right priorities for any problem	Developing cooperation and brotherhood and developing the

	spirit of determination among students
Statement of learning outcomes 5	Learning outcomes 5
Developing respect for time and time in completing and implementing work. Developing the spirit of fair competition among work groups in pursuit of quality work, excellence and diversity in performance	Self-evaluation - leadership evaluation - valuing the efforts of scholars

9- Teaching and learning strategies
Teaching and learning strategies and methods adopted in implementing the program in general
<ul style="list-style-type: none"> • Cooperative education strategy. • Learning strategy improvisation games. • Teaching strategy brainstorming. • Panorama education strategy. • Education strategy collaborative concept planning. • Teaching strategy one minute paper. • Real-time feedback strategy education • Education strategy notes series. • Mind mapping education strategy • Modeling learning strategy: It is known as social learning, in which the individual acquires and learns responses and new behavioral patterns within a social context or situation through observation or attention. In general, it is an illustrative method of education in which experiments are employed as well as methods and models

10- Evaluation methods

Implemented in all stages of the program in general

- Written tests - Oral tests - Electronic tests - Daily tests

The college has relied on clear, high-quality evaluation methods and tools for student learning in order to maintain the quality of the graduate and the academic reputation of the college. This is embodied in the university's regulations and the requirements for continuous evaluation of students, provided that there are several types of evaluation methods in order to ensure the quality of The quality of the graduate, which constitutes the final outcome of the educational process, and the most important methods of evaluation are:

A - Objective tests to measure knowledge of facts, comprehend them, apply scientific knowledge in new situations, and measure remembering, through the following:

- True and false questions.
- Multiple choice questions.
- Interview questions matching items))
- Completion questions

-Practical tests concern the following matters:

The ability to perform motor and skill sports (basketball, volleyball, handball...).

- Mathematical understanding of scientific and practical material, playing laws and principles.
- The ability to recall, link and interpret.
- Apply knowledge in a simple way to interpret data,
- Diagnosis and problem solving.

It is done through the following:-

Connection test / open questions.

- Questions that have a specific answer.
- Which is based on motivating the student with questions that do not have a specific answer.
- Possessing the skill in organization.
- Possessing the skill in arranging ideas.
- Avoid fraud and confront it.

11- Teaching profession					
Faculty members					
Preparing the teaching staff		Special requirements/skills (if any)	Specialization		Scientific rank
lecturer	angel		private	general	
	✓		Motor learning	Physical education and sports sciences	Professor Dr

Professional development
Orienting new faculty members
Briefly classifies the process used to orient new, visiting, full-time, and part-time faculty at the institution and department levels.
Professional development for members of the teaching profession.
Briefly describe the academic and professional development plan and arrangements for faculty members such as teaching and learning strategies, assessment of learning outcomes, professional development, etc.

12 - Acceptance criterion
Establishing regulations related to enrollment in the college or institute, whether central admission or others mentioned
- The average of students in the sixth year (preparatory, vocational), through which admission to the university level takes place.
- Acceptance through the Olympic Committee (only for champion athletes).
Raising the College of Physical Education and Sciences' acceptance rate equivalent to the acceptance rate of the Colleges of Engineering and Sciences

13- The most important sources of information about the program

Remember briefly

The curriculum approved by the Ministry of Higher Education and Scientific Research and its guidelines.

- Decisions and recommendations of scientific committees in physical education and sports sciences
- Courses in teaching methods.
- Description of courses.
- Courses in civil society organizations.
- Conferences, seminars, workshops and panel discussions.
- Relevant state institutions.
- Graduates Unit
- Internet searches for similar experiences.
- Personal experiences.

- Scientific sources approved within the curriculum for the stage in which education takes place

- The curriculum approved by the Ministry and unified for all colleges of physical education in Iraq.

- The rules of the Olympic Games taught by a specialist teacher in the game.

- Equipping colleges with practical laboratories, halls, and playgrounds for the subjects taught.

14- Program development plan

The program works to develop the student's academic personality in a manner commensurate with the ambitions of the modern state. - Highlighting the strengths of students in a way that allows them to form a leadership personality in the future. - Extracting the student's hidden talents to develop his field of work and raise the level of education.

- Modern scientific sources and the latest scientific research are periodically reviewed through which the prescribed curriculum is developed. - The theoretical and practical material is combined to develop the curriculum.

Program skills chart															
Learning outcomes required from the programme												Essential or optional?	Course Name	Course Code	Year/level
Value				Skills				Knowledge							
4C	3C	2C	1C	4B	3B	2B	1B	A4	A3	2A	A1				
✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	Basic	Motor learning		2023-2024

*Please check the boxes corresponding to the individual learning outcomes from the program subject to evaluation

Course description form

1. Course name: Motor learning	
2. Course code	
3.Semester/Year: Annual	
4.The date this description was prepared is 3/16/2024	
5.Available forms of attendance: 2 hours per week and daily attendance	
6.Number of study hours (total) / Number of units (total) 60 hours / 60 units	
7.Name of the course administrator (if more than one name is mentioned)	
<ol style="list-style-type: none"> 1. Prof. Dr. Thaer Rashid Hassan Head of the scientific group 2. Prof. Dr. Suhad Abbas Abboud. 3. Prof. Dr. Basma Naeem Mohsen. 4. Prof. Dr. Bashair Rahim Shalal. 5. Prof. Dr. Majed Khalil Khamis. 6. Prof. Dr. Hatem Shawkat Ibrahim. 7. Prof. Dr. Shaima Hassoun, thanks. 8. A.M.D. Sraa Abbas Muhammad. 	
8.Course objectives	
<ul style="list-style-type: none"> ● Helping students to know the assessment and evaluation methods used to ensure that students obtain the targeted learning outcomes 	Objectives of the study subject

<ul style="list-style-type: none"> ● Identify the importance of statistics and its relationship to statistical treatments of grades ● Learn about transcribing data from tests in a correct scientific manner 	
9.2. Teaching and learning strategies	
<p>1- Activating the learner's role in educational situations</p> <p>2- Motivating learners to generate creative ideas about a specific topic, by searching for correct answers, or possible solutions to the issues presented to them.</p> <p>3- That students become accustomed to respecting and appreciating the opinions of others</p> <p>4- That students become accustomed to benefiting from the ideas of others, by developing and building on them</p>	Strategy

10. Course Structure (Kinesthetic Learning)					
week	Time	Outcomes	Topic	Teaching method	Method Of assessment
1st	2	Knowing general concepts in Motor learning	General concepts in Motor learning	Presentation	-----
2nd	2	Knowing the relationship between Motor learning and other sciences	The relationship between Motor learning and other sciences	Presentation	-----
3rd	2	Explaining the principles, steps, and terms of Motor Learning	The principles, steps and terms of Motor learning	PowerPoint	Oral exams
4th	2	Knowing Physical abilities	Physical abilities	PowerPoint and questions/ answers(online)	Oral exam
5th	2	Knowing Motor abilities	Motor abilities	PowerPoint	Oral exam
6th	2	Classifying motor abilities	classifications of motor abilities	questions and answers(online)	Oral exam
7th	2	Knowing the measurement of motor learning by curves and equations	The measurement of motor learning via curves and equations	PowerPoint	Oral exams

8th	2	Knowing the measurement of motor learning by transferring the impact learning and measuring maintaining	The measurement of motor learning via transferring the impact learning and measuring maintaining	PowerPoint	Oral exams
9th	2	Identifying students' assessments by Cognitive achievements	First – term exam(theoretical exam	-----	Online written exam
10th	2	Mental processes and its stages	Mental processes and its stages	PowerPoint	Oral exam
11th	2	Knowing feedback(concept, types and functions	feedback(concept, types and functions	PowerPoint	Oral exam
12th	2	Knowing feedback obstacles, timing , repetition, and methods	feedback(obstacles, timing , repetition, and methods	PowerPoint	Oral exam
13th	2	Scheduling exercise(procedures of performing)	Scheduling exercise(procedures of performing)	PowerPoint	Oral exam
14th	2	Knowing transference impact of learning or training (sources and factors)	Transference impact of learning or training (sources and factors)		Oral exams
15th	2	Identifying students' assessments by Cognitive achievements	-----	-----	-----
16th	2	Knowing the kinaesthetic – sense- perception	The kinesthetic –sense- perception		written exams
17th	2	Knowing the importance of kinesthetic –sense- perception	the importance of kinesthetic –sense- perception	PowerPoint	Oral exams
18th	2	Identifying measurements of sensory- kinesthetic and perceptual abilities	Measurements of sensory- kinesthetic and perceptual abilities	PowerPoint	Oral exams
19th	2	Identifying kinesthetic sense and kinesthetic perception	kinesthetic sense and kinesthetic perception		Oral exams
20th	2	Knowing biorhythm concepts, theories, scholars	Biorhythm concepts, theories, scholars	PowerPoint	Oral exams
21st	2	Knowing the periods of biorhythm cycles according to Purism's theory	Biorhythm cycles according to Purism's theory	PowerPoint	Oral exams
22nd	2	Knowing Motor compatibility (concept, types	Motor compatibility (concept, types and	Questions and answers (online)	Oral exams

		and developmental considerations	developmental considerations		
23rd	2	Knowing the stages of Motor learning and effective factors on it)	the stages of Motor learning and effective factors on it)	PowerPoint	Oral exams
24th	2	Identifying students' assessments by Cognitive achievements	Mid –year exam(theoretical exam	-----	Online written exams
25th	2	Knowing Motor compatibility from wajah Mahjoub's point of view	Motor compatibility from wajah Mahjoub's point of view	PowerPoint	Oral exams
26th	2	Knowing Motor learning theories (close circle or sensory effect theory	Motor learning theories (close circle or sensory effect theory	PowerPoint	oral exams
27th	2	Knowing Motor learning theories (open circle or kinetic programs theory	Motor learning theories (open circle or kinetic programs theory	PowerPoint	Oral exams
28th	2	Knowing Motor learning theories(motor or informative theory	Motor learning theories(motor or informative theory	PowerPoint	Oral exams
29th	2	Knowing theoretical related to motor learning and correlational theories	Knowing theoretical related to motor learning and correlational theories	PowerPoint	Oral exams
30th	2	Identifying students' assessments by Cognitive achievements	Final exam	-----	Online written exam

11- Course evaluation

Distribution of the score out of 100 according to the tasks assigned to the student, such as daily preparation, daily, oral, monthly, written exams, reports, etc.

The first course is 25, the second course is 25, and the final exam is 50
