

Ministry of Higher Education and Scientific Research Scientific supervision and evaluation device Department of Quality Assurance and Academic Accreditation Accreditation Department

# Academic program description guide

### the introduction:

The educational program is considered a coordinated and organized package of academic courses that includes procedures and experiences organized in the form of academic vocabulary, the main purpose of which is to build and refine the skills of graduates, making them qualified to meet the requirements of the labor market. It is reviewed and evaluated annually through internal or external audit procedures and programs such as the external examiner program. The description of the academic program provides a brief summary of the main features of the program and its courses, indicating the skills that students are working to acquire based on the objectives of the academic program. The importance is evidentThis description represents the cornerstone of obtaining program accreditation, and the teaching staff participates in writing it under the supervision of the scientific committees in the scientific departments. This guide, in its second edition, includes a description of the academic program after updating vocabulary and paragraphs The previous guide in light of the latest developments in the educational system in Iraq, which included a description of the academic program in its traditional form (annual, quarterly), in addition to adopting the description of the academic program circulated according to the letter of the Department of Studies T.M. 3/2906 on 5/3/2023, whileConcerning programsWhich relies on the Bologna Track as a basis for its work. In this area, we can only emphasize the importance of writing descriptions of academic programs and courses to ensure the smooth conduct of the educational process.

### Concepts and terminology:

<u>Description of the academic program</u> The description of the academic program provides a brief summary of its vision, mission, and objectives,

including an accurate description of the targeted learning outcomes according to specific learning strategies.

<u>Course description</u>It provides a necessary summary of the most important characteristics of the course and the learning outcomes expected of the student to achieve, demonstrating whether he has made the most of the available learning opportunities. It is a gallows, according to the program description.

<u>See the program</u>An ambitious picture for the future of the academic program, to be an advanced, inspiring, motivating, realistic, and applicable program.

<u>Program message</u>: The objectives and activities necessary to achieve them in a concise way, and it also determines the paths of development of the program

<u>Program Goals</u>These are statements that describe what the academic program intends to achieve within a specific period of time and are measurable and observable.

<u>Program structure</u>: All courses/study subjects included in the academic program according to the approved learning system (semester, annual, Bologna track), whether you are required (ministry, university, college, or scientific department), along with the number of study units.

<u>Learning Outcomes</u>: A compatible set of knowledge, skills, and values that the student has acquired after successfully completing the academic program. The learning outcomes for each course must be determined in a way that achieves the program's objectives.

<u>Teaching and learning strategies</u>: They are the strategies used by a faculty member to develop the student's teaching and learning, and they are plans that are followed to reach the learning goals. That is, it describes all classroom and extracurricular activities to achieve the learning outcomes of the programme.

# 1 - The vision of the program

Remember to see the program as stated in the university bulletin and website.

Diyala University seeks scientific leadership, excellence and creativity in the fields of higher education and scientific research to serve the community and enhance its local, regional and international standing to reach the highest levels of quality and international accreditation.

# 2- Program message

State the program's mission as stated in the university's bulletin and website.

Providing effective academic university education through continuous development of academic programs in many specializations in light of the requirements of development plans to serve the labor market and contribute to promoting sustainable development.

# 3- Program objectives

General statements that describe what the program or institution intends to achieve.

- Building a distinguished educational institution within international standards that meets the requirements of the local, regional and international community in accordance with the directions of the Ministry of Higher Education and Scientific Research.
- Creating a stimulating environment for teaching, learning and creativity by developing and updating scientific curricula and training and evaluation methods to keep pace with the requirements of the labor market.
- 3. Keeping pace with technological development in the fields of blended e-learning and developing educational and academic programs to adapt university students and teaching staff

# 4- Program accreditation

Does the program have program accreditation? From which side? both

# 5- Other external influences

Is there a sponsor for the program? both

6- Program structure

# 9- Teaching and learning strategies

Teaching and learning strategies and methods adopted in implementing the program in general

Cooperative education strategy.

Learning strategy improvisation games.

Teaching strategy brainstorming.

Panorama education strategy.

Education strategy collaborative concept planning.

Education strategy one minute paper.

Education strategy real time feedback

Education strategy notes series.

Education strategy mind mapping

Modeling learning strategy: It is known as social learning, in which the individual acquires and learns responses and new behavioral patterns within a social context or situation through observation or attention. In general, it is an illustrative method of education in which experiences are employed as well as methods and models.

### 10- Evaluation methods

Implementing it in all stages of the program in general.

- Written tests - Oral tests - electronic tests - daily tests

The college has relied on clear, high-quality evaluation methods and tools for student learning in order to maintain the quality of the graduate and the academic reputation of the college. This is embodied in the university's regulations and the requirements for continuous evaluation of students, provided that there are several types of evaluation methods in order to ensure the quality of The quality of the graduate, which constitutes the final outcome of the educational process, is one of the most important methods of evaluation:

- A Objective tests to measure knowledge of facts, comprehend them, apply scientific knowledge in new situations, and measure remembering, through the following:
- True and false questions.
- Multiple choice questions.
- · Interview questions (matching items).
- · Completion questions.
- -Practical tests concern the following matters:-

The ability to perform motor and skill sports

- · The ability to recall, link and interpret.
- · Apply knowledge in a simple way in interpreting data,
- · Diagnosis and problem solving.

It is done by the following:-

Connection test/open questions.

- Questions that have a specific answer.
- Which is based on motivating the student with questions that do not have a specific answer.
- Possessing the skill in organization.
- Possessing the skill in arranging ideas.
- Avoid fraud and confront it.

### Professional development

Orienting new faculty members

Briefly classifies the process used to orient new, visiting, full-time, and part-time faculty at the institution and department levels.

Professional development for members of the teaching profession

Briefly describe the academic and professional development plan and arrangements for faculty members such as teaching and learning strategies, assessment of learning outcomes, professional development, etc.

# 12 - Acceptance criterion

Establishing regulations related to enrollment in the college or institute, whether central admission or others mentioned

- The average of students in the sixth year (preparatory, vocational), through which admission to the university level takes place.
- Acceptance by the Olympic Committee (only for champion athletes).
- Raising the average of the College of Physical Education and ScienceSportsEquivalent to admission to engineering and science colleges.

# 13- The most important sources of information about the program

Remember briefly

The curriculum approved by the Ministry of Higher Education and Scientific Research and its guidelines.

- Decisions and recommendations of scientific committees in physical education and sports sciences
- Courses in teaching methods.
- Description of courses.
- Courses in civil society organizations.
- Conferences, seminars, workshops and panel discussions.
- Relevant state institutions.
- Graduates Unit
- Search the Internet for similar experiences.
- Personal experiences.
  - Scientific sources approved within the curriculum for the stage in which the education takes place
  - The curriculum approved by the Ministry is unified for all colleges of physical education in Iraq.
  - The rules of the Olympic Games are taught by a specialist teacher.
- Equipping colleges with practical laboratories, halls, and

playgrounds for the subjects taught.

# 14- Program development plan

The program works to develop the student's academic personality in a manner commensurate with the ambitions of the modern state. - Highlighting the strengths of students in a way that allows them to form a leadership personality in the future. - Extracting the student's hidden talents to develop his field of work and raise the level of education.

-Modern scientific sources and the latest scientific research are reviewed periodically, through which the prescribed curriculum is developed. - Theoretical and practical material are combined to develop the curriculum.

5. Available forms of attendance: 2 hours per week and daily attendance.
6. Number of study hours (total) / Number of units (total) 60 hours / 60 units
7. Name of the course administrator(if moreFrom a name mentioned)
1 - Prof. Dr. Laith Ibrahim Jassim - Head of the scientific group for the
fourth stage
2 - Prof. Dr. Hatem Shawkat Ibrahim

- 3- Prof. Dr. Shorouk Mahdi Kazem
- 4 Prof. Dr. Nizar Nazim Hamid
- 5- M.M. Mortada Rushdi Hamid

# 8. Course objectives

 Helping students to know the offensive plans with drawing and integrating them used in the game of handball to ensure that the students obtain the targeted learning outcomes.

Objectives of the study subject

- Helping students know the defensive formations used in the game of handball to ensure that students obtain the targeted learning outcomes
- Helping students manage a handball match and providing them with legal knowledgeAnd build their judgmental personality.

# 9. Teaching and learning strategies

- 1- Activating the learner's role in educational situations 2- Motivating learners to generate creative ideas about a specific topic, by searching for correct answers, or possible solutions to the issues presented to them.
  - 3- That students become accustomed to respecting and appreciating the opinions of others
  - 4- That students get accustomed to benefiting from the ideas of others, by developing and building on them

strategy

Course structure (handball)
