Academic program description guide

2025-2026

the introduction

An educational program is a coordinated and organized package of ...courses that includes

It consists of procedures and experiences organized into academic vocabulary, the main purpose of which is to build and refine skills

Graduates, which makes them qualified to meet the requirements of the labor market, are reviewed and evaluated annually via

Internal or external audit procedures and programs, such as the external . examiner program

The academic program description provides a brief summary of the main features of the program and its courses

The skills that students are working on acquiring are based on the objectives of the academic program and are evident

The importance of this description is that it represents the cornerstone of obtaining programmatic accreditation and participation

In writing the teaching staff under the supervision of the scientific . committees in the scientific departments

This guide, in its second edition, includes a description of the academic program after updating vocabulary and paragraphs

The previous guide in light of the latest developments in the educational system in Iraq, which included a description

The academic program is in its traditional form (annual, quarterly) , in addition to adopting the program description

The academic circulated according to the letter of the Department of Studies T.M. 3/2906 on 5/3/2025 regarding

. Programs that adopt the Bologna Process as a basis for their work

In this area, we can only emphasize the importance of writing descriptions of academic programs and courses

. To ensure the smooth running of the educational process

: Concepts and terminology

Description of the academic program : The description of the academic program provides a brief summary of its vision, mission, and objectives, including an accurate description of the targeted learning outcomes according to specific learning strategies

Course description : Provides a necessary summary of the most important characteristics of the course and the learning outcomes expected of the student to achieve, demonstrating whether he has made the most of the available learning opportunities . He is a hangman, according to the . program description

The program vision : An ambitious picture for the future of the academic program to be a developed, inspiring, motivating, realistic and applicable . program

Program mission : The goals and activities necessary to achieve them in a brief way. It also defines the program's development paths

Program objectives : These are statements that describe what the academic program intends to achieve within a specific period of time and . are measurable and observable

Program structure : All courses / study subjects included in the academic program according to the approved learning system (semester, annual, Bologna track) , whether you are required (ministry, university, college, . or scientific department) , along with the number of study units

Learning outcomes : A consistent set of knowledge, skills, and values that the student has acquired after the successful completion of the academic program. The learning outcomes for each course must be determined in a . way that achieves the program's objectives

Teaching and learning strategies : They are the strategies used by the faculty member to develop the student's teaching and learning, and they are plans that are followed to reach the learning goals . That is, it describes all classroom and extracurricular activities to achieve the . learning outcomes of the program

Academic program description form

University name: Diyala University

College/Institute: College of Physical Education and Sports Sciences

Scientific Department: Theoretical Sciences Branch

Name of the academic or professional program: Bachelor of Physical Education and Sports Sciences.....

Name of final degree: Bachelor's in Physical Education and Sports Sciences..... ..

School system. annual

Description preparation date: 2/10/2025

Date of filling the file: 2/10/2025

Signature: 

Name of the branch head: Prof. Dr. Ferdous Majeed Ameen

Date: 5/10/2025

Signature:-

Name of the scientific assistant: Prof. Dr. Muhammad Walid Shehab

Date:

Check the file before Division of Quality Assurance and University Performance

Name of the Director of the Quality Assurance and University

Performance Division: Assit.Prof. Dr. Riyadh Abdul Redha Farhan

the date: 7/10/2025

Authentication of the Dean

The vision of the program 1-
Remember to see the program as stated in the university bulletin and . website
Diyala University seeks scientific leadership, excellence and creativity in the fields of higher education and scientific research to serve the community and enhance its local, regional and international standing to .reach the highest levels of quality and international accreditation

Program message -2
State the program's mission as stated in the university's bulletin and . website
Providing effective academic university education through continuous development of academic programs in many specializations in light of the requirements of development plans to serve the labor market and .contribute to promoting sustainable development

Program objectives -3
General statements that describe what the program or institution intends .to achieve
a) Building a distinguished educational institution within international standards that meets the requirements of the local, regional and international community in accordance with the directions of the .Ministry of Higher Education and Scientific Research b) Creating a stimulating environment for teaching, learning and creativity by developing and updating scientific curricula and training and evaluation methods to keep pace with the requirements of the labor .market c) Keeping pace with technological development in the fields of blended3 3e-learning and developing educational and academic programs to adapt university students and teaching staff

Program accreditation -4
Does the program have program accreditation? From which side? both

Other external influences -5
Is there a sponsor for the program? both

Program structure -6				
*comments	percentage	Study unit	Number of courses	Program structure

Expected learning outcomes of the program - 8	
Knowledge	
Statement of learning outcomes 1	Learning outcomes 1
Highlighting the student's personality in a way that develops him	A1- Enabling students to obtain the knowledge required to understand mathematical theories and laws Helping students to know the relationship of the program and its academic elements (courses or subjects) with the awarded certificate and future job qualifications

Increasing the student's self-- .confidence Highlighting the hidden talents of - the student	Helping students to know the -2A teaching and learning methods that help them achieve the targeted learning outcomes in the theoretical section
Highlighting students' teamwork -	A3- That the student be able to perform and practically apply all individual and group games
Skills	
Statement of learning outcomes 2	Learning outcomes 2
Developing students in the skillful performance of the practical games included in the program	Helping students apply the theoretical and practical subjects they have learned inside and outside the university setting
Statement of learning outcomes 3	Learning outcomes 3
Increasing communication between individuals, which contributes to building a learning community	Helping students apply their ideas and talents inside and outside the university . setting
Value	
Statement of learning outcomes 4	Learning outcomes 4
Learn to set the right priorities for any problem	Developing cooperation and brotherhood and developing the spirit of determination among students
Statement of learning outcomes 5	Learning outcomes 5
Developing respect for time and time in completing and implementing work. Developing the spirit of fair competition among work groups in pursuit of quality work, excellence and .diversity in performance	self evaluation. -Leadership evaluation. Appreciating the efforts of scientists-

Teaching and learning strategies -9
Teaching and learning strategies and methods adopted in implementing the program in general
. Cooperative education strategy • .Learning strategy improvisation games • .Teaching strategy brainstorming •

- .Panorama education strategy •
- .Education strategy collaborative concept planning •
- .Education strategy one minute paper •
- Education strategy real-time feedback •
- .Education strategy notes series •
- Education strategy mind mapping •
- Modeling learning strategy : It is known as social learning, in which the individual acquires and learns responses as well as new behavioral patterns in a social context or situation through observation or attention. In general, it is an illustrative method of education in which experiences are employed as well as methods and models •

Evaluation methods -10

.Implementing it in all stages of the program in general

Oral tests - Electronic tests - Daily tests - Written tests -

The college has relied on clear, high-quality evaluation methods and tools for student learning in order to maintain the quality of the graduate and the academic reputation of the college. This is embodied in the university's regulations and the requirements for continuous evaluation of students, provided that there are several types of evaluation methods in order to ensure the quality The quality of the graduate, which constitutes the final outcome of the educational process, and :the most important methods of evaluation are

A - Objective tests to measure knowledge of facts, comprehend them, apply scientific knowledge in new :situations, and measure remembering, through the following

- .True and false questions •
- .Multiple choice questions •
- matching items).**) Interview questions •

- Completion questions ·
- :Practical tests concern the following matters-
The ability to perform motor and skill sports (basketball,
.(...volleyball, handball
- Sports understanding of scientific and practical material, ·
- playing laws and principles
- The ability to recall, link and interpret ·
- ,Apply knowledge in a simple way in interpreting data ·
- Diagnosis and problem solving ·
- :It is done through the following
- Connection test / open questions
- Questions that have a specific answer -
- Which is based on motivating the student with questions that -
- do not have a specific answer
- Possessing the skill in organization -
- Possessing the skill in arranging ideas -
- Avoid fraud and confront it -

Teaching profession -11					
. Faculty members					
Preparing the teaching staff		requirements/ skills (if any)	Specialization		Scientif ic rank

Professional development

Orienting new faculty members
Briefly classifies the process used to orient new, visiting, full-time, and part-time faculty at the institution and department levels
Professional development for members of the teaching profession
Briefly describe the academic and professional development plan and arrangements for faculty members such as teaching and learning strategies, assessment of learning outcomes , professional development, etc

Acceptance criterion - 12
Establishing regulations related to enrollment in the college or institute, whether central admission or others mentioned
The average of students in the sixth year (preparatory, vocational), - through which admission to the university level takes place Acceptance by the Olympic Committee (only for champion - (athletes Raising the College of Physical Education and Sciences' - acceptance rate equivalent to the acceptance rate of the Colleges of Engineering and Sciences

The most important sources of information about the -13 program
Remember briefly The curriculum approved by the Ministry of Higher Education and Scientific Research and its guidelines Decisions and recommendations of scientific committees in • physical education and sports sciences • Courses in teaching methods • • Description of courses • • Courses in civil society organizations • • Conferences, seminars, workshops and panel discussions • • Relevant state institutions • Graduates Unit • • Internet searches for similar experiences • • Personal experiences •

- Scientific sources approved within the academic curriculum for the stage in which the education takes place
- The curriculum approved by the Ministry is unified for all colleges of physical education in Iraq
- The rules of the Olympic Games are taught by a specialist teacher
- Equipping colleges with practical laboratories, halls, and playgrounds for the subjects taught

Program development plan -14

The program works to develop the student's academic personality in a manner commensurate with the ambitions of the modern state. - Highlighting the strengths of students in a way that allows them to form a leadership personality in the future. - Extracting the student's hidden talents to develop his field of work and raise the level of education

Modern scientific sources and the latest scientific research are periodically reviewed through which the prescribed curriculum is developed . - The theoretical and practical material is combined to develop the curriculum
